UNM Domenici Center  
for Health Sciences Education  
1001 Stanford NE  
Albuquerque, NM

PRESENTED BY:

SCHOOL OF  
MEDICINE  
DEPARTMENT OF FAMILY  
& COMMUNITY MEDICINE

### ALSO® Provider Course

**Advanced Life Support in Obstetrics (ALSO®)** is an evidence-based, interprofessional, and multidisciplinary training program that equips the entire maternity care team with skills to effectively manage obstetric emergencies. This comprehensive course encourages a standardized team-based approach amongst physicians, residents, nurse midwives, registered nurses and other members of the maternity care team to improve patient safety and positively impact maternal outcomes.

### Overall Course Objectives

1. Discuss methods of managing pregnancy and birth urgencies and emergencies, which standardizes the skills of practicing maternity care providers.
2. Demonstrate content and skill acquisition as evidenced by successful completion of online course examination, skills workstations, and group testing stations.
3. Provide safe team leadership through various emergency obstetric scenarios.
4. Demonstrate effective team communication strategies focusing on patient safety.

### Course Disclaimer

The material presented at this course is being made available by the American Academy of Family Physicians for educational purposes only. This material is not intended to represent the only, nor necessarily the best, methods or procedures appropriate for the medical situations discussed, but rather is intended to present an approach, view, statement, or opinion of the Instructors which may be helpful to others who face similar situations.

The AAFP disclaims any and all liability for injury, or other damages, resulting to any individual attending this course and for all claims which may arise out of the use of the techniques demonstrated therein by such individuals, whether these claims shall be asserted by a physician, or any other person.

Every effort has been made to assure the accuracy of the data presented at this course. Clinicians may care to check specific details, such as drug doses and contraindications, etc., in standard sources prior to clinical application.
